The Judge Who Objected to an increased Salary.

The title of John Clinton Gray, who relited from the bench of the highest court of New York State on January I, having reached the age of seventy years, will be "Retired Judge." That is not a to mominal or colloquial title. It is specified in the statutes of New York State. A "retired judge" who has served upon the bench of the highest court receives for life a pension of \$8,000.

Judge Gray as a Jurist gained, in the twenty-five years of his service upon the bench of the Court of Appeals, a national, even an international, reputation. The story was told to me some years ago by a judge who when a young man was familiar with Martin Grover's career and who knew his personally.
